Regulatory Compliance Audit

Redlog's can assist you in carrying out a third-party due diligence compliance audit.

To prepare for the audit, Redlog will submit an information request for documents that need to make available for review by the auditor in advance of the audit. A pre-site inspection call will be made to go over the site information and address questions related to the auditing process. HSE Auditor Pro will be customized for each site in advance of the site visit, based on site-specific activities, jurisdictional requirements and site requirements.

A typical audit requires 1-2 days on site, and a report will be submitted to the site within one week of the visit. A closing meeting is generally done remotely within one week following submission of the audit report.

Each audit includes a customized version of HSE Auditor Pro free one-year subscription to Redlog's HSE Regulatory and HSE Auditor Pro Updating Service, a \$3,000 value!

Price: \$5,000¹ for a typical facility, plus travel \$500 to \$1,500 for sites outside of Dubai, Abu Dhabi, Kuwait City, Dammam.

Contact us at info@redlogenv.com for further information related to our HSE compliance services, inquires related to jurisdictions not included above, for customized services, compliance audit training, and for discounts for orders with multiple jurisdictions.

² Annual updating service offer restricted to existing clients who have purchased a version of HSE Auditor Pro within the last 18 months.
